19.Recommendations for syllabus change

8 responses

NA

No but Insist more practical portions to Academics

None

Research practice from initial stages might enhance involvement of students which may help in deeper interest in Pharma field

Emphasize the importance of incorporating practical skills and real-world applications into the curriculum.

No changes

Psychology can be recommend to include in syllabus

Needed year wise course. In semester type curriculum, we are forced to hurry to study for exams only, not able to learn fulfilly.

20.Recommendations for new skill development

6 responses

NA

Computer skills, Inter-Personality skills, Research related skills

None

Advanced training in regulatory affairs, Workshops or seminars , Courses in data analysis and interpretation and Exposure to emerging technologies.

Need to improve many skills

English proficiency

21.Any one point or suggestion for Quality improvement

6 responses

Demo on all the instruments available in the institute

Apart from curriculum,we would provide networking with seniors which plays a vital role in Curriculum for finding jobs and to study masters in Abroad

None

Conducting Yearly Mock tests from Pharma core and current Pharma topics from 1st year itself may enhance the core knowledge which would help in stronger understanding of the sectors.

Enhance alumni networking opportunities, expand the career support and keep mentorship programs to support professional growth.

Many things
